

CLC Board Meeting 1/28/99

Expansion / Facilities...

Should we expand or should we not expand. It is a complicated decision. If we grow it will take energy.

Questions and Comments

- Don't grow just for the sake of growing.
- What is the limit of the growth?
- Would we accept people into a seventh grade class?
- Why two buildings?
- How does this facility meet our needs?
- What about our bussing needs?
- Can we build and how would we build?
- We do need to meet community needs?

It sounds like we should not expand if that means being in two different buildings.

- We will explore the possibility of expanding by two classes with two new teachers.
- Facilities committee will come back with what our options are.
- We will do a survey of who will be returning.
- We will be talking with the district about expanding with 48 more students.
- We will be making the decision one month from now.

Meeting was adjourned after tabling other issues until next meeting
